representatives and permitted assigns) of the other part:

Whereas the licensees have requested the Secretary of State to furnish them a supply of electrical energy in bulk for the purpose of distribution in the area fixed by the Pallachi Electric Licence, 1932, hereinafter called the licence and the Secretary of State has agreed to afford such supply to the licensees on the terms and conditions hereinafter contained.

Now it is hereby declared and agreed as follows:—

1. Subject to the provisions hereinafter contained and during the continuance of this agreement the Secretary of State shall supply and the licensees shall take from the Secretary of State on and after the 1st October 1932 all such electrical energy as the licensees shall require for the purpose of the supply by the licensees under the powers contained in the said licence or for any other purpose for which the licensees may require energy.

2. The energy supplied to the licensees by the Secretary of State shall be on the three phase 50 cycle alternating current system at a normal pressure of 11,000 volts or 22,000 volts. The frequency and pressure of the electrical energy at the point of supply to the feeders of the licensees at the receiving station of the Secretary of State at Pollachi and other points of supply shall be subject to the fluctuations that are ordinary usual and incidental to the generation and transmission of electrical energy but such fluctuations shall not except owing to extraordinary reasons beyond the control of the Secretary of State be more than five per cent on the frequency and twelve and a half per cent on the pressure. The licensees agree to specify that all their 11,000 or 22,000 volts step-down transformers shall be delta connected on the high tension side and Y connected on the low tension side.

3. Save as provided herein the supply shall be available continuously except in cases of lockout or strike of the employees of the Secretary of State, breakdown of machinery or plant, force majeure or any other cause over which the Secretary of State has no control in any of which cases the Secretary of State shall not be responsible for any discontinuance of the energy but he shall restore the supply as soon as he reasonably can.

4. The points of supply shall be as follows:—

(a) From the receiving station of the Secretary of State at Pollachi at 11,000 volts.

(b) From any point on the Secretary of State's 11,000 or 22,000 volts lines in the licensed area at the discretion of the Secretary of State.

5. All 11,000 or 22,000 volts services or feeders taken directly from the Secretary of State's lines or busbars shall be suitably protected by the licensees by high tension fuses or automatic oil circuit breakers. The fuses and circuit breakers shall be capable of successfully rupturing the maximum short-circuit energy likely to occur at the point of installation. The relay settings and fuse capacities will be specified by the Chief Engineer for Electricity or his representative.

6. All transformers, switchgear and other electrical equipment directly connected to the feeders or lines of the Secretary of State shall be maintained to the reasonable satisfaction of the Chief Engineer for Electricity or his representative.

7. Squirrel cage motors exceeding certain capacities will not be permitted on the Secretary of State's feeders as follows:—

Capacity of feeder. K V A. 5 per cent drop.	Maximum h p of motor.
Up to 250	10
„ 500	20
„ 1,000	50
„ 1,500	75
„ 2,000 and over	100

The starting current of such squirrel cage motor shall not exceed 200 per cent normal full load current.

The starting of slip ring or other similar motors shall be by means of suitable appliances so designed, that the starting current at any time does not exceed 150 per cent normal full load current for capacities up to 50 horse power, and 125 per cent for all sizes over 50 horse power.

8. For the purpose of registering the electrical energy taken by the licensees under this agreement there shall be provided at the point of supply defined in clause 4 (a) one 11,000 volt metering set on each feeder of the licensees which shall be the property of and be kept in repair and calibrated by the Secretary of State. Each meter set shall consist of the necessary instrument transformers one polyphase integrating wattmeter with one kilovolt ampere demand meter. Alternatively the Secretary of State may instal a polyphase integrating wattmeter with demand attachment and determine the power factor by mutual agreement.

9. The licensees may at their own expense instal check meters on their feeders at the receiving station of the Secretary of State at Pollachi or any other point of supply.

10. The meters shall be properly sealed on behalf of both parties and shall not be interfered with by either party except in the presence of the other party or its representative duly authorized in that behalf.

11. The readings of the said meters shall be taken by the accredited representatives of the licensees and the Secretary of State at or as near noon as practicable on the last day of each calendar month and the readings so taken shall be binding and conclusive between the licensees and the Secretary of State as to the amount of electrical energy supplied to the licensees. In the event of any meter being found defective and a check meter not having been installed, the power consumed during the period for which the meter was defective shall be determined by taking the daily average consumption for the previous three months.

12. The licensees shall from time to time and at all times on previous notice thereto allow the employees of the Secretary of State in the Electricity Department to enter the transformer and sub-stations of the licensees at Pollachi or any other point of supply for all or any of the purposes connected with the supply of electrical energy to the licensees under this agreement.

13. Once in every year the meters shall be recalibrated and standardized by means of standard instruments by the Secretary of State in the presence of the licensees' Electrical Engineer or their representative.

14. The licensees shall be entitled on application to the Secretary of State or his authorized representative in this behalf to have a special test carried out of the meters at any time and the expenses of such test shall be borne by the Secretary of State or the licensees according as the meters are found defective or correct as a result of such a test. Such meters shall be deemed to be correct if the limits of error do not exceed those laid down in the Indian Electricity

Rules, 1922, or any other statutory modifications thereof for the time being in force.

15. For the purpose of this agreement the maximum demand at each point of supply to the licensees in each month shall be the largest total amount of kilovolt amperes delivered to the feeders of the licensees at the point of supply during any consecutive thirty minutes in the month.

16. Maximum demand charges for any month and at any point of supply will be based on the average monthly maximum K.V.A. demand for the twelve months ending with the month in question always provided that this average be not less than the average demand chargeable for any previous month in which case the higher figure will be taken as the basis for payment. For the first year's service the demand charge for any month will be based on the average of the monthly demands for all the months ending with the month in question with the same proviso as aforementioned. (The demand charge for the first month of operation will correspond to the maximum demand for that month.)

17. FOURTH ANNEXURE.

Power agreement between the Secretary of State for India in Council and the licensees The Municipal Council of Tiruppur.

This Agreement forming the Fourth Annexure to the licence for the distribution and sale of power in the Tiruppur Municipal area made this 26th day of July 1932, between the Secretary of State for India in Council (hereinafter called the Secretary of State which expression shall include his successors and assigns) of the one part and the Municipal Council of Tiruppur (hereinafter called the licensees which expression shall include their heirs and executors and administrators and legal representatives and permitted assigns) of the other part.

Whereas the licensees have requested the Secretary of State to furnish them a supply of electrical energy in bulk for the purpose of distribution in the area fixed by the Tiruppur Electric Licence, 1932, hereinafter called the licence and the Secretary of State has agreed to afford such supply to the licensees on the terms and conditions hereinafter contained.

Now it is hereby declared and agreed as follows.

1. Subject to the provisions hereinafter contained and during the continuance of this agreement the Secretary of State shall supply and the licensees shall take from the Secretary of State on and after the 1st October 1933 all such electrical energy as the licensees shall require for the purpose of the supply by the licensees under the powers contained in the said licence or for any other purpose for which the licensees may require such energy.

2. The energy supplied to the licensees by the Secretary of State shall be on the three phase 50 cycle alternating current system at a normal pressure of 11,000 volts or 22,000 volts. The frequency and pressure of the electrical energy at the point of supply to the feeders of the licensees at the Receiving Station of the Secretary of State at Tiruppur and other points of supply shall be subject to the fluctuations that are ordinary, usual and incidental to the generation and transmission of electrical energy but such fluctuations shall not except owing to extraordinary reasons beyond the control of the Secretary of State be more than five per cent on the frequency and twelve and a half per cent on the pressure. The licensees agree to specify that all their 11,000 or 22,000 volts step-down transformers shall be delta connected on the high tension side and Y connected on the low tension side.

3. Save as provided herein the supply shall be available continuously except in cases of lockout or strike of the employees of the Secretary of State, breakdown of machinery or plant, force majeure or any other cause over which the Secretary of State has no control in any of which cases the Secretary of State shall not be responsible for any discontinuance of the energy but he shall restore the supply as soon as he reasonably can.

4 The points of supply shall be as follows :—

(a) From the Receiving Station of the Secretary of State at Tiruppur at 11,000 volts.

(b) From any point on the Secretary of State's 11,000 or 22,000 volts lines in the licensed area at the discretion of the Secretary of State.

5 All 11,000 or 22,000 volts services or feeders taken directly from the Secretary of State's lines or busbars shall be suitably protected by the licensees by high tension fuses or automatic oil circuit breakers. The fuses and circuit breakers shall be capable of successfully rupturing the maximum short-circuit energy likely to occur at the point of installation. The relay settings and fuse capacities will be specified by the Chief Engineer for Electricity or his representative.

6. All transformers, switchgear and other electrical equipment directly connected to the feeders or lines of the Secretary of State shall be maintained to the reasonable satisfaction of the Chief Engineer for Electricity or his representative.

7. Squirrel cage motors exceeding certain capacities will not be permitted on the Secretary of State's feeders as follows :—

Capacity of feeder K.V.A. 5 per cent drop.	Maximum h.p. of motor.
Up to 250	10
„ 500	20
„ 1,000	50
„ 1,500	75
„ 2,000 and over	100

The starting current of each squirrel cage motor shall not exceed 200 per cent normal full load current.

The starting of slip ring or other similar motors shall be by means of suitable appliances so designed, that the starting current at any time does not exceed 150 per cent normal full load current for capacities up to 50 horse power, and 125 per cent for all sizes over 50 horse power.

8. For the purpose of registering the electrical energy taken by the licensees under this agreement there shall be provided at the point of supply defined in clause 4 (a) one 11,000 volt metering set on each feeder of the licensees which shall be the property of and be kept in repair and calibrated by the Secretary of State. Each meter set shall consist of the necessary instrument transformers one polyphase integrating wattmeter with one kilovolt ampere demand meter. Alternatively the Secretary of State may instal a polyphase integrating wattmeter with demand attachment and determine the power factor by mutual agreement.

9 The licensees may at their own expense instal check meters on their feeders at the Receiving Station of the Secretary of State at Tiruppur or any other point of supply.

10 The meters shall be properly sealed on behalf of both parties and shall not be interfered with by either party except in the presence of the other party or its representative duly authorized in that behalf.

11. It shall be the duty of the licensees to give to the nearest magistrate immediate and full information of any circumstances in which the interruption of the supply may be apprehended as a result of civil commotion or disturbance of the public peace or any strike or lockout of the nature specified in section 15 of the Trade Disputes Act, 1929.

12 The readings of the said meters shall be taken by the accredited representatives of the licensees and the Secretary of State at or as near noon as practicable on the last day of each calendar month and the readings so taken shall be binding and conclusive between the licensees and the Secretary of State as to the amount of electrical energy supplied to the licensees. In the event of any meter being found defective and a check meter not having been installed, the power consumed during the period for which the meter was defective shall be determined by taking the daily average consumption for the previous three months.

13. The licensees shall from time to time and at all times on previous notice thereto allow the employees of the Secretary of State in the Electricity Department to enter the transformer and sub-stations of the licensees at Tiruppur or any other point of supply for all or any of the purposes connected with the supply of electrical energy to the licensees under this agreement.

14. Once in every year the meters shall be recalibrated and standardized by means of standard instruments by the Secretary of State in the presence of the licensees' Electrical Engineer or their representative.

15. The licensees shall be entitled on application to the Secretary of State or his authorized representative in this behalf to have a special test carried out of the meters at any time and the expenses of such test shall be borne by the Secretary of State or the licensees according as the meters are found defective or correct as a result of such a test. Such meters shall be deemed to be correct if the limits of error do not exceed those laid down in the Indian Electricity Rules, 1922, or any other statutory modifications thereof for the time being in force.

16. For the purpose of this agreement the maximum demand at each point of supply to the licensees in each month shall be the largest total amount of kilovolt amperes delivered to the feeders of the licensees at the point of supply during any consecutive thirty minutes in the month.

17. Maximum demand charges for any month and at any point of supply will be based on the average monthly maximum KVA. demand for the twelve months ending with the month in question, always provided that this average be not less than the average demand chargeable for any previous month in which case the higher figure will be taken as the basis for payment. For the first year's service the demand charge for any month will be based on the average of the monthly demands for all the months ending with the month in question with the same proviso as aforementioned. (The demand charge for the first month of operation will correspond to the maximum demand for that month.)

18. For each calendar month during the term of this agreement the Licensees shall pay to the Secretary of State a demand charge at the rate of Rs. 3-12 per kilovolt ampere up to 500 KVA, Rs 3-4-0 per KVA when the maximum demand exceeds 500 KVA. and Rs. 3-0 per KVA. when the maximum demand exceeds 1000 KVA., as determined in the preceding clause. The licensees shall pay this charge as a minimum, without prejudice to the conditions in clause 21.

19. In addition to a demand charge to be paid each month as provided in clause 18, the licensees shall pay a service charge per K.W.H. of all electrical energy consumed by the licensees during the month, which shall be at one of the following rates dependent upon the category within which falls the licensees' total consumption :—

Classes.	Total monthly consumption in K.W.H.	Rate per K.W.H.
		ANNA.
I	Up to 45,000	.. 0-60
II	Exceeding 45,000 up to 80,000	.. 0-53
III	„ 80,000 „ 140,000	.. 0-50
IV	„ 140,000 „ 200,000	.. 0-43
V	„ 200,000	.. 0-40

20. A rebate of 20 per cent will be allowed on all power supplied by the Secretary of State to the licensees at the Receiving Station at Tiruppur or at any other point of supply during the period from July 1st to September 30th both days inclusive, in excess of the maximum monthly consumption recorded during the previous nine months.

21. If at any time the licensees are prevented from receiving using distributing or selling the electrical energy to be supplied under this agreement either in whole or in part owing to strikes, riots, insurrections, command of a Civil or Military authority, fire, explosives, act of God or any other cause reasonably beyond control, or if the Secretary of State is prevented from or unable to supply such electrical energy owing to all or any of the causes mentioned above then the minimum charge payable by the licensees shall be reduced in proportion to the ability of the licensees to take or the Secretary of State to supply such power.

22. The Secretary of State shall within fifteen days after the expiration of each calendar month deliver to the licensees an account stating the number of units supplied to the licensees by the Secretary of State in accordance with the readings of the said meters and the amount payable therefor as also the amount payable in respect of the maximum demand charge and other charges if any payable by the licensees to the Secretary of State and the licensees shall pay the same within thirty days from the delivery of such account.

23. If the payments herein provided for or any part thereof shall be unpaid for the space of thirty days next after any of the days whereon the same ought to have been paid as aforesaid or if the licensees shall not in all things perform and observe the covenants and conditions herein contained and on the part of the licensees to be observed and performed then and in such case and in addition to any other right or power possessed by the Secretary of State it shall be lawful for the Secretary of State at any time thereafter notwithstanding that the Secretary of State may not have taken advantage of any previous breach or default or event of a like nature at his choice to suspend all further supply of electrical energy under this agreement or to forthwith by notice in writing determine this agreement. Such suspension of the supply of electrical energy shall not relieve the licensees of their liability to pay the minimum charge provided for in clause 18 nor shall such determination affect any right claim demand or power which may have accrued to the Secretary of State or be enforceable by virtue of these presents.

24. This agreement shall subject as herein before provided be and remain in force for ten years from the date hereof. If the licensees shall desire to renew this agreement for a further term of ten years from the expiration of the ten years hereby created and of such their desire shall give the Secretary of State at least twelve months' previous notice in writing on or before the date of expiration of this agreement and shall have duly performed and observed all the covenants and conditions herein contained then and in such case the Secretary of State shall grant to the licensees a new agreement for a further term of ten years on the same terms as this agreement and containing the same clauses and conditions in so far as they shall apply with the exception of the present clause and clause 20.

30 At least 10 per cent of the depreciation or sinking funds must be invested in Government or Trustee securities and not drawn upon, without the permission of the Government, until the fund has accumulated to the original amount provided for.

31 When the return on the Capital invested has averaged less than the amount required to meet the fixed charges annually over a period of five years, returns in excess of the amount of the fixed charges will be sanctioned if desired, for so long as may be required to make up the accumulated deficits in the fixed charges.

32 The licensees will be required to extend their low tension distribution lines to any point within the licensed area when a guaranteed annual consumption of energy equal to or greater than an average of 8,000 KWH. per mile can be obtained from the prospective consumers.

33. Any dispute or difference arising between the licensees and the Secretary of State or their respective Electrical Engineers, as to the supply of electrical energy hereunder or the pressure thereof or as to the interpretation of this agreement or the right of the Secretary of State or the licensees respectively to determine the same or any other question matter or thing arising hereunder such difference shall be referred to a single arbitrator to be appointed on the application of either party by the Honourable the Chief Justice for the time being of Madras if willing to act or if he shall be unwilling to act then some other person who shall be mutually agreed upon by both parties The arbitrator's decision thereon shall be final and the provisions of the Indian Arbitration Act of 1899 or of any other statutory modifications thereof for the time being in force shall apply to any such reference

The proportionate increase, if any, would not exceed the proportionate decrease in the gold exchange value of the rupee at the date of this agreement.

RULES.

Preparation of the budget.

1. The president of every committee administering a village development fund shall in each year prepare a statement showing the probable receipts and the expenditure of the fund (hereinafter referred to as the budget) for the following year. He shall consult the Director of Public Health, the District Health Officer and the District Engineer in respect of matters concerning their departments.

2. The working balance to be provided for in the budget shall not be less than one per cent of the estimated receipts of the year excluding those from endowments, if any, and provincial grants.

3. The budget shall be prepared in Form A appended to these rules.

Presentation of the budget.

4. The budget prepared in the manner laid down above shall be placed before the committee administering the fund by its president ordinarily not later than the 15th December.

Sanctioning of the budget.

6. The committee shall after satisfying itself on the following points sanction the budget with such modifications as it may deem necessary:—

(1) that the estimate of receipts is exhaustive and cautious;

(2) that the recommendations, if any, of the officers referred to in rule 1 have been duly considered in framing the budget;

(3) that sufficient provision has been made for all obligatory charges;

(4) that all variations between the figures of the budget year and those of the previous year have been adequately explained;

(5) that sufficient provision has been made in respect of all commitments; and

Wherever the sanction of any authority is required for any proposed expenditure, such sanction shall be obtained before the committee considers the proposal.

9. The president shall pay prompt attention to the remarks, if any, made by the auditor in regard to expenditure as compared with the budget allotment.

Allotments and Transfers.

10. All allotments made in the budget shall lapse at the end of the year and no part of any allotment remaining unexpended at the end of the year shall be reserved or appropriated by transfer to deposits or any other head, or drawn, in order to avoid lapse, for disbursement after the end of the year.

11. All expenditure during the course of a year shall be regulated in accordance with the allotments made in the budget for the year, as sanctioned by the committee. Where an allotment or additional allotment under any head of account is subsequently found necessary, such allotment or additional allotment shall be made by re-appropriation from other heads, subject to the following conditions and limitations:—
